

## Simcad Pro® Lite

1

- 2D visualization
- Patented no-code model building environment
- Custom image import & standard image library
- Simulation summary/object, current state & process reporting
- Dynamic interactive modeling while the simulation is running
- Limited object definition--10 object type limit
- Support for up to 50 processes/stations
- Live dashboards, metrics, & KPIs

**\$895 ea.**

## Simcad Pro® Advanced

all Simcad Pro® features, plus:

3

- Costing
- Value Stream Mapping
- Collision detection & avoidance
- External libraries & modules
- Weight & volume-based buffers, capacities, & assemblies
- Lean analysis, OEE, spaghetti diagrams & flow analysis
- Scenario analysis & management
- Monte Carlo simulation support
- Schedule/Gantt chart & path analysis
- Internal lookup--one section

**\$14,500 ea.**

Annual Maintenance \$2,200 ea.

## Simcad Pro®

all Simcad Pro® Lite features, plus:

- 2D & 3D CAD import
- Auto-scale to dimensions
- AVI movie capture
- Multiple display layers
- Nested/hierarchical modeling
- Dynamic multi-layer assemblies
- Changeover, setup, MTBF, MTTR, planned/unplanned maintenance
- Labor/resources/manpower definition & allocation
- Simulation analysis & bottleneck reporting
- Conveyor support
- Robotics/AGVs/carriers
- Work order & schedule loading

**\$4,950 ea.**

Annual Maintenance \$990 ea.

**Modules \$3,650 ea.**

Module Annual Maintenance \$200 ea.

Want to  
customize?

Start with  
Simcad Pro®  
and add modules  
a-la-carte!

## Simcad Pro® Elite

all Simcad Pro® Advanced features, plus:

- Sub-flows
- Animated 3D visualization
- CreateASoft's 3D animator
- Internal library & modules
- Advanced automation modeling
- Auto-create processes, paths, storage racks & AS/RS
- Integrated, no-code database connectivity
- Custom dashboards & dynamic charts
- Multiple section internal tables
- Custom reporting & analysis
- Advanced schedule optimization
- Forecasting engine

**\$19,950 ea.**

Annual Maintenance \$2,995 ea.

Virtual  
Reality  
Enabled
